

The recent parental survey has provided valuable feedback on various aspects of our school's environment and programs. We are pleased to note several positive outcomes, alongside constructive suggestions for improvement. Here is a summary of the key positive findings and the actions we will take based on the survey:

Positive Findings:

Children's Happiness and Safety: Parents reported that their children feel happy and safe at school, indicating a nurturing and secure environment.

Well-Behaved Students: Feedback highlights that students generally exhibit good behaviour, contributing to a positive and respectful school culture.

Support for SEND Students: Parents expressed satisfaction with the support provided to students with Special Educational Needs and Disabilities (SEND), ensuring they succeed and thrive.

High Expectations: The survey indicates that parents appreciate the high expectations set for all students, fostering an environment of achievement and excellence.

Regular Progress Updates: Parents feel well-informed about their children's progress, with regular updates keeping them engaged and aware of their development.

Opportunities for Wider Community Development: There are ample opportunities for students to develop in the wider community, and parents value the experiences offered through various clubs and extracurricular activities.

School Recommendation: The majority of parents would highly recommend the school to others, reflecting their overall satisfaction with the school's performance.

Areas for Improvement:

Homework Expectations: Some parents have suggested improvements in homework expectations to better support student learning at home.

Actions to be Taken:

Maintain a Safe and Happy Environment: We will continue to prioritise creating a safe and happy environment for all students by regularly reviewing safety protocols and fostering a supportive atmosphere.

Reinforce Positive Behaviour: We will sustain and enhance positive behaviour through ongoing character education programs and recognition of good conduct.

Enhance SEND Support: Building on our success, we will further develop our SEND support programs, providing additional resources and training for staff to ensure all SEND students receive the best possible support.

Uphold High Expectations: We will maintain our high expectations for all students by setting clear academic and behavioural standards, and providing the necessary support to meet these expectations.

Improve Communication on Progress: To keep parents well-informed, we will enhance our communication strategies by offering more detailed progress reports and regular parent-teacher conferences.

Revise Homework Expectations: Based on parental feedback, we will review and adjust our homework policies to ensure they are effective and supportive of student learning. This will include setting clear guidelines, providing appropriate amounts of homework, and offering resources to help parents assist their children.

By implementing these actions, we aim to build on our strengths and address the areas for improvement, ensuring a well-rounded, supportive, and high-achieving environment for all students at our school.
